Attest

Maxship has been employed by Vard Accommodation during the newbuilding project of NB824.

As DOF is the client/buyer, I have been working together with several employees for Maxship, during installation period and final inspections. During the period we have been working with Maxship Accommodation department, it has been a pleasure to work with them. Employees speak good English, eager to do the best for the clients and finds solutions.

I wish Maxship Accommodation department good luck in the future.
